**To: All Shippers delivering to the Gibson Hardisty Terminal**

**Subject: Updates to Schedule 1 of the Gibson Rules and Regulations**

Please be advised that effective November 1<sup>st</sup>, 2017, Gibson Tariff No 103, Schedule 1 to the Gibson Rules and Regulations (Crude Petroleum Specifications), will be replaced with Gibson Tariff No 104. Minor changes have been made to the Crude Petroleum Specifications for the Hardisty Terminal as it relates to Stream density. These changes have been implemented in order to align with downstream carrier requirements.

If you have any questions related to this change, or would like further information please contact either:
